AUCTION 37 ~~37~~

Closing 5 April 1998, Sunday, 6:00 p.m. USA Pacific Time

Great Britain and Commonwealth issues are featured this auction with Seventeenth Century tokens and Pub Checks listed in substantial numbers. A Jamaica Banana Tally collection is presented as well as an assortment of 19th Century tokens from Australia and New Zealand.

German tokens of the Miscellaneous Check variety are well represented. Collectors should see the list of rare Flottengeld, or Naval Tokens, in the first part of the German section.

Lot descriptions are brief by necessity and oriented to numismatists. Sizes are given in millimeters although large paper pieces may be in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not part of the token legend or describes some device on the token. *ham* stands for "hole-as-made" to describe pieces pierced at the time of issue.

Catalog numbers from published lists are sometimes used to aid description, e.g. (L#101.3) and refer to the most current work on the topic. Listing each reference would be too cumbersome, so please write if you need to know which. Dollar values written (\$5) stand for a suggested bidding level. An "MB" or "Res." enclosed in parentheses with a dollar value (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid".

Multiple-piece lots in most cases are made up of common items and selected for best grade and broadest interest. They often contain items which sell at shows for \$5-10 each but which will not sell by mail auction. Damaged or worn specimens are not included.

Grading a series as varied as world tokens is at best subjective, especially items of crude manufacture. I try to be conservative and in most cases will reduce the grade if I have any doubts. Comments on my methods of operation are always welcome. All bidders have a ten day no-questions-asked return privilege. After ten days returns may be refused.

Please remember that a Bidder's Fee of 9% will be added to the sale price. After 4:00 pm USA Pacific Time on closing day phone bidders must raise current bids by at least 15% in order to qualify.

## MAIL BID SALE RULES AND TERMS

1. The sale closes at 6 p.m. USA Pacific Time on the date noted above or until 15 minutes pass with no telephone bids. Lots are sold to the highest bidder. In the event of a tie the lot goes to the earliest bidder. Bids differing by only a few cents will be considered a tie.
2. Bids must be in U.S. Dollars. Those under \$3 are respectfully declined.
3. Winning bids will be reduced to a 10% advance over the next highest bid, or the Reserve (Minimum Bid), if any. In the event there is only one bidder, bids will be reduced to the published estimate. In any case the maximum reduction will be 65% of the highest bid. Bids will not be reduced under \$25. In general acceptable bids will be those which are at least 65% of the published estimate. (See Page 3 for phone bid rules.)
4. Successful bidders will be billed first or sent winning lots with the bill if they are established customers. Postage, shipping and insurance will be added to invoices where such are appropriate. There will be a minimum charge of \$1 for postage and processing. A Bidder's Fee of 9% or \$1 will be added whichever is higher. California Residents must pay 8.5% Sales Tax. Overseas customers must accept responsibility for postal delivery. International postal service is increasingly unreliable.
5. Prices Realized: please order them when you submit your bids. I will include the cost with your bill; \$1 per copy.
6. Please check the shipments for all errors and keep a copy of the bids you submit. Please pay within 10 days.

BIDDING BY FAX OR TELEPHONE? The best hours to reach me by phone are 7-9 a.m. USA Pacific Time. The least expensive and most certain means to bid is by mail or fax. A fax can be sent anytime.

For those who like to call in bids, I will have current information available from the computer during the seven days before closing. In the final hours of closing day current high bids may or may not be available. Bids often arrive in rapid succession leaving no time for their entry on the computer.

If you request computer information, you have to bid 10% over the current highest in order to qualify. For items quoting under \$10, you must bid at least \$1 more. After 4:00 pm Pacific time on closing day phone bidders must raise the bid by at least 15%.

## MAIL AUCTION 37

### Prices Realized

The left hand column below is the Lot number. Lots not listed received no bids or else received those too low for consideration. The middle column is the auction price rounded to the nearest US dollar, although in many cases the actual amount may have been somewhat above or below that given. The figure in parentheses is the number of those bidding for any given lot.

The German Light Cruiser Emden moved quietly into the British naval base at Penang in what is now Malaysia. Daytime light was fading quickly in the tropical light. The ship's engineers had added a third smokestack to disguise the vessel. Within minutes, the Russian cruiser Zhemchug and French destroyer Morisquet were torpedoed and lay sinking in their berths. It was late Fall 1914, just a few months after the outbreak of World War I. The Emden became legendary for its exploits against British shipping in the Indian Ocean. The Australians brought the cruiser to its end beating the Royal Navy to a final battle. The Emden and its sister ships formed the German East Asia Squadron which was stationed in Kiauchow. When the port was overrun by Japanese troops the Emden and its flagship, the Scharnhorst, were ordered to sea to harass enemy shipping in the Pacific and Indian oceans. Another ship, the Geier, stationed at Samoa, found itself cut off from supplies and had to intern at the then neutral port of Honolulu. At the end of the war it was awarded to the U.S. Navy and re-named the Carl Schurz. (See Lots 926, 928 & 931.)
